Art Unit: 2863

1. Applicants' papers filed on 1/11/2007 and 2/15/2007 have been received and entered. Claims 1, 4, 5, and 7 have been amended. Claims 14-20 have been added. Claims 1-20 are pending in the application.
2. Claims 1-13 respond to interview summary requested (dated 12/8/2006) have been moot and allowed. The argument for new claims 14-20 are not persuasive, and it is moot in view of the rejection.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 14-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a judicial exception; as such, pursuant to the Interim Guidelines on Patent Eligible Subject Matter (MPEP 2106), the claims must have either physical transformation and/or a useful, concrete and tangible result. The claims fail to include transformation from one physical state to another. Although, the claims appear useful and concrete, there does not appear to be tangible result claimed. The final step merely "moving said three-dimensional measuring unit based on the duplicated block data to measure the surface shape of said workpiece (w)" would not appear to be sufficient to constitute a tangible result, since the outcome of this step has not been used in a disclosed practical application nor made available in such a manner that its usefulness in a disclosed practical application can be realized. As such, the subject matter of the claims is not patent eligible.

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-13 are indicate allowable over the prior art of record (please see the previous office action and applicants' amendment response for reason for allowance.

Response to Arguments

5. Applicant's arguments with respect to claims 1-13 have been considered and persuasive. After consulted with 101 panel, the new claims 14-20 does not appear to be a tangible result claimed. Please see the rejection above.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
